

Satellite Accumulation Area Inspection Report			Submit To: Environmental Branch Building 4640 Questions Call: 544-9578 or 544-5988
Date	Location	POC	Inspector
Inspection Criteria		Pass/Fail	Comments
<u>Container Labeling:</u> Are containers holding hazardous waste clearly marked with the words "Hazardous Waste" or words describing the contents?			
<u>Container Compatibility:</u> Are wastes compatible with the accumulation container?			
<u>Container Condition/Housekeeping:</u> Are containers in good condition, free of leaks, spill, corrosion, and structural defects?			
<u>Container Handled/Closed:</u> Are containers handled in a manner to prevent rupture or leaks? Are containers over 30 gallons stacked more than two high? Are containers kept closed, except when necessary to add or remove waste?			
<u>Container Location:</u> Are containers located at or near point of generation?			
<u>Full Containers:</u> Have filled containers been dated and turned in for relocation to the HWSF?			
<u>Corrective Action:</u> Have discrepancies been corrected in a timely manner?			
CERTIFICATION			
The information above is, to the best of my knowledge, accurate. All necessary corrective action has been completed.
